

Privacy facts for schools

Mokulua Math is free math facts practice for home on iPhone and iPad. It is built to collect nothing.

- [x] **No accounts or logins**
- [x] **No ads**
- [x] **No analytics or tracking code**
- [x] **App Store privacy label: Data Not Collected**
- [x] **No names or emails asked for**
- [x] **No purchases**
- [x] **Works offline**
- [x] **Rated 4+ on the App Store**

Where progress is kept

Progress stays on the device and, if the family uses iCloud, in their own iCloud account. We never see it. The game never sends anything to us.

Data agreements

The app receives no student data. If your school needs a data agreement or anything else, email help@mokuluamath.com.

For school iPads

Every App Store app is available to schools through Apple School Manager at its normal price. Mokulua Math is free, so it is $0 there too. Each iPad keeps one child's progress, so it works best on an iPad a child has to themselves.
